

## [RDN Liquid Waste Management Plan Amendment](#)

The Liquid Waste Management Plan (LWMP) is a plan to support sustainable wastewater management in the Regional District of Nanaimo (RDN), including the District of Lantzville. This plan authorizes the RDN to find community-driven and cost-effective solutions to protect public health and achieve a standard level of wastewater treatment over a reasonable timeframe.

**A public amendment process is now underway** and Public Consultation and First Nations Engagement are key components of the LWMP amendment process.
