

District of Lantzville
Incorporated June 2003

COMMUNITY WATER SYSTEM MAINTENANCE

Between February 16th and March 4th, the District's water system will undergo annual routine maintenance, including flushing of water lines to remove sediment and maintain good water quality, as well as fire hydrant maintenance.

Flushing is achieved by releasing water in the mains through fire hydrants and stand pipes. This causes a bubbling of air which may discolour the water. No chemicals are added to the system. During this time there may be some discolouration of water and, while this should not affect the quality of drinking water, we recommend that laundry be done on weekends or evenings to avoid possible discolouration of clothes, etc.

We apologize for any inconvenience this required maintenance may cause.

If you have any questions, please contact the District Office at 250.390.4006.
