## **Community Water System Maintenance**

During the month of October, the community water system fire hydrants are scheduled for annual maintenance. As a result of this maintenance, there may be some discoloration of the water and, while this should not affect the quality of the drinking water, we recommend that laundry be done on weekends or evenings to avoid discoloration of clothes, etc. The District apologizes for any inconvenience this may cause.

## **Water Meter Testing**

Water users are encouraged to regularly check their water line for leaks by following these 2 easy steps:

1. Turn off all appliances and taps inside and outside of the home; and
2. Check meter by lifting the lid. If the triangle inside the glass is spinning you may have a leak in your line.

Please contact the District Office if you require any assistance
