“Schedule B”
District of Lantzville 2019-2023 Financial Plan Bylaw No. 168, 2018
For The Five Year Period 2019 To 2023

Section 165(3.1) of the *Community Charter*, requires the following discussion regarding the policies and objectives surrounding the District’s funding sources, distribution of property taxes among property classes, and permissive tax exemptions be provided as an addendum to the five year financial plan.

A. Funding Sources

Table 1 shows the proportion of total revenue proposed to be raised by each funding source in 2019.

Revenue Source	% of Total Revenue
Property value taxes	27
Parcel taxes	5
User fees and charges	10
Other Sources	58
Total	100

Table 1

1) Property Taxes

The District’s property tax base is largely residential. This provides a generally stable and consistent revenue source for the District to fund basic operational expenditures such as administration of the District, fire protection services, public works, and parks and recreation.

Council policy is to use the property tax levy to fund the operational expenditures of the District. The District expects this to continue to be the major source of municipal revenue.

2) Parcel Taxes

Parcel taxes are fees levied on a parcel of land without reference to the assessed value of that land. It is usually the same amount for every parcel within a defined area. Parcel taxes are generally used for specific purposes, like a local area service.

Council policy to date has been to use parcel taxes where the nature of the expenditure being funded is specific to the parcel, and not based on assessment of the property. In 2019 the District will collect parcel taxes on capital costs related to Phase II Sewer Infrastructure and Knarston Creek Overflow Project (residents within the defined local area service), as well as for water.

3) User Fees and Charges

User fees attempt to fairly apportion the cost of some municipal services to those residents who actually use the service. The District currently collects user fees on a quarterly basis for water and sewer services as well as annually for waste collection.

Council policy is to recover 100% of costs related to the water distribution and sewer collection systems through user fees. User fees are reviewed each year as part of the financial planning process.

4) Proceeds from Borrowing

Council policy is to use long term debt only for significant capital projects that cannot be efficiently carried out on an incremental basis using internal reserves or current funding sources. The *Community Charter* limits the amount of debt the District can incur based on the District’s ability to pay which is a calculation based on continuing revenues. The District will be incurring external debt, obtained through the Municipal Finance Authority of British Columbia, to fund Sewer Phase III.

5) Other Sources

Revenues in this category consist of appropriations from accumulated operating surplus, investment revenue, as well as insignificant miscellaneous revenues. These revenues vary from year to year.

Other sources includes grant revenue. Grants are funds received by the District usually from other governments or agencies for specific purposes. These grants usually involve some cost sharing between the funding agency and the District. Regarding optional grant funding available, Council policy is to consider applying for grants with funding arrangements that are affordable to the District.

The Community Works Fund historically have been a significant source of funds for District operations. The grant amount and funding formula change periodically. The 2019 grant is estimated at \$439,000.

B. Property Value Tax Distribution

Table 2 provides the proportionate distribution of property tax revenue and assessment value among the property classes.

Property Class	% of 2019 Total District Assessment	% of 2019 Property Tax Revenue
Residential	97.1	86.1
Utilities	0.2	4.2
Light Industry	0.2	1.1
Business and Other	2.2	7.9
Managed Forest Land	0.2	0.5
Recreation/Non-profit	0.1	0.2
Farm	0.0	0.0
Total	100.0	100.0

Table 2

Residential properties represent most of total assessed value of properties in the District. Taxing other classes at a high multiple of the residential rate would generate very little additional property tax revenue, while imposing an undue burden on non-residential property owners of the District. Council has given consideration to the location of various classes of properties within the District and the exposure and related benefit that one class may obtain from that location relative to other classes.

C. Permissive Tax Exemptions

Permissive tax exemptions are a way for the District to recognize the value of services provided to the community by non-profit organizations. The District's Annual Report provides a list of permissive exemptions granted each year and the amount of tax foregone.

Council policy is to review the one-year permissive tax exemptions granted in the prior year as well as any new requests for exemption prior to October 31 of each year. One ten-year permissive tax exemption has been granted to the Island Corridor Foundation.
