

District of Lantzville

Incorporated June 2003

April 30, 2010

Dear Property Owner

Re: Knarston Creek Overflow Project – Status Update

This correspondence will provide you with a status update as it relates to the Knarston Creek Overflow Project.

As you are aware, Council resolved to contribute additional monies to the Knarston Creek Overflow Project in the amount of \$106,800 over and above the \$400,000 secured through the District's application for funding under the Towns for Tomorrow Program with the remaining monies (\$253,200) to be through the establishment of a Local Area Service (21 properties identified as possible participants in the cost sharing of this project – see map enclosed).

The counter petition process concluded on April 7th, and seven (7) valid petitions were received. As this number fails to meet the required 50%, Council, at their Regular Meeting held April 26th, 2010 resolved to proceed with the implementation of the Knarston Creek Overflow Project by formally establishing a Local Area Service (LAS) which will see the implementation of a pipe system (including box-culvert, bypass/outflow) for the purpose of managing flows and enhancing drainage in the Knarston Creek floodplain area.

The establishment of the LAS was one component of the overall project and while construction of the works is tentatively scheduled to commence August 15th, 2010, the District must still complete the following steps and/or acquire the necessary permits prior to proceeding, as follows:

1. Tender the Project (mid May with Council contemplating award of the contract in June, subject to receipt of favourable tender results)
2. Application for a Water Licence (currently underway)
3. Letter of Authorization (currently underway)

While the aforementioned items may impact the District's ability to proceed with the Knarston Creek Overflow Project, we will continue to keep you informed of the nature of this project by way of direct communications and postings to our website.

Should you have any additional questions or require any clarification regarding the information contained in this correspondence please do not hesitate to contact the District office.

Yours truly

Twyla Graff
