

NOTICE

September 29, 2020

Setting the 7704 Superior Road Record Straight

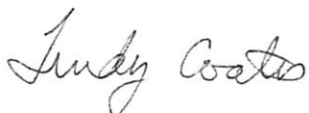

The letter mailed by an individual to households in Lantzville September 25, 2020, titled 'Council – respect the OCP, respect the people' contained incorrect information.

The July 13, 2020, open Council minutes includes the announcement from a closed meeting that the District was *initiating* an Official Community Plan (OCP) and Zoning Bylaw amendment to re-designate and rezone a portion of 7704 Superior Road to facilitate a light industrial and service commercial development. Also, that the District would *initiate discussions* with the Ministry of Transportation and Infrastructure and the Snaw-Naw-As (Nanoose) First Nation regarding the amendment process.

After these initial steps and discussions are complete, a report and draft bylaw amendments will be presented to Council for consideration to proceed with the public process and bylaw readings.

The OCP was not, and will not, be changed in a closed Council meeting and without following the legislated process.

Council, at their September 28, 2020, regular Council meeting, passed a motion to publish this notice to correct the misinformation distributed in the community by an individual.
