

Lantzville Rd Watermain Upgrades – Peterson Rd to Huddleston Rd

**Completion date extended
to October 2022**

NOTICE TO LOCAL RESIDENTS

Copcan Civil LP has been engaged by the District of Lantzville to replace a section of watermain on Lantzville Road between Peterson Road and Huddleston Road. The project also includes the replacement of a storm culvert that crosses Lantzville Road near Huddleston Road.

Schedule:

- Work will take place in two phases.
- Phase 1 for the replacement of the storm culvert will start on September 7th, 2022 and be complete by September 21st, 2022.
- Phase 2 for the replacement of the watermain will start in mid-January, 2023 and conclude in late March of 2023.

Project and Site Safety:

- Public and worker safety is Copcan's first priority on all projects. As such, we ask that you respect the posted restricted access construction zones.

Vehicle & pedestrian Impacts:

- Vehicle Traffic
 - Vehicle access along Lantzville Road will be maintained using a single lane alternating traffic control setup. Vehicle access will be maintained to all side roads off of Lantzville Rd. Local access to all businesses and residents will be available 24/7.
 - Special consideration for transit, service and emergency vehicles will be explored continually throughout the project.
- Driveway access interruptions
 - Occasional driveway access interruptions may be required as the utilities are installed across residents' driveways. Notice will be given 24 hours in advance and interruptions will not last longer than one working day (10 hours).
